

2. 1 The water introduces itself

Hello!!! Should I introduce myself? I am
the water

I am the clear water
that flows into the
rivers.

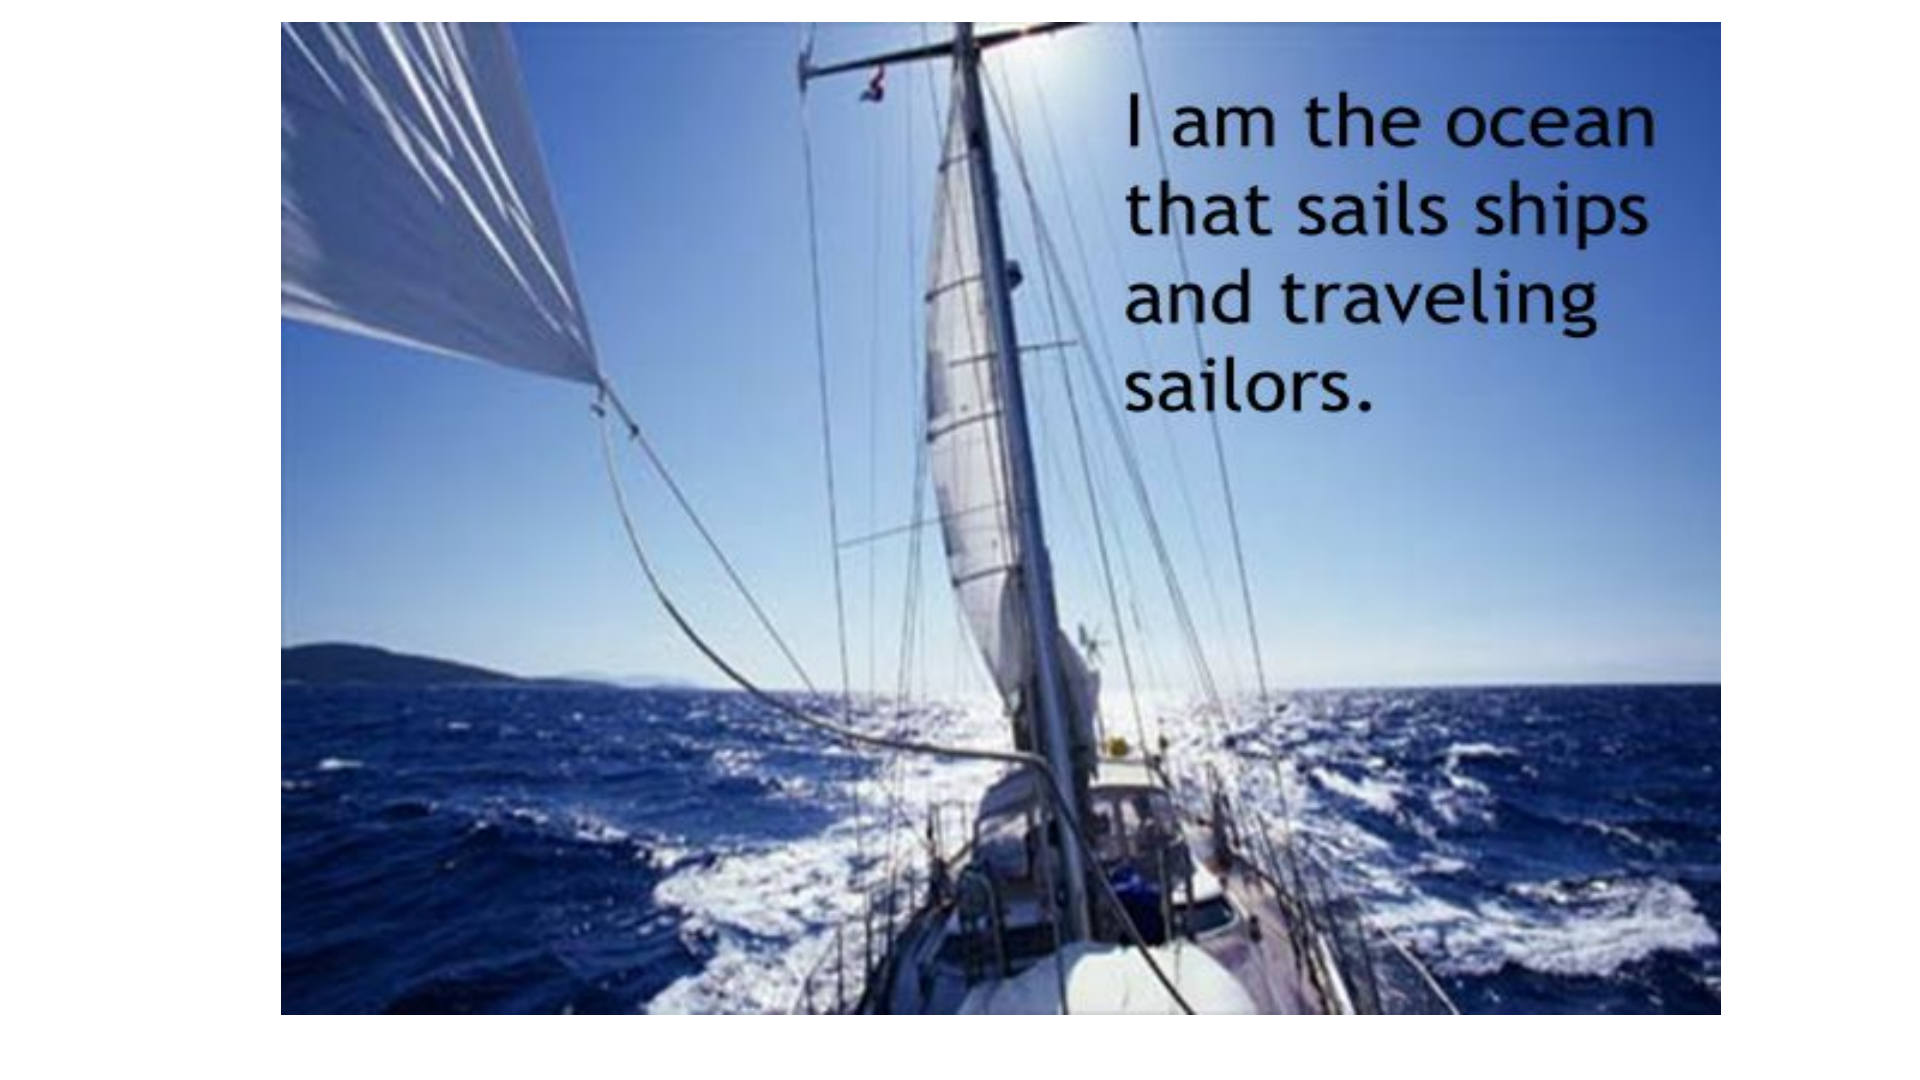

I am the ocean.

In my arms I hold dolphins, seals,
and fish.

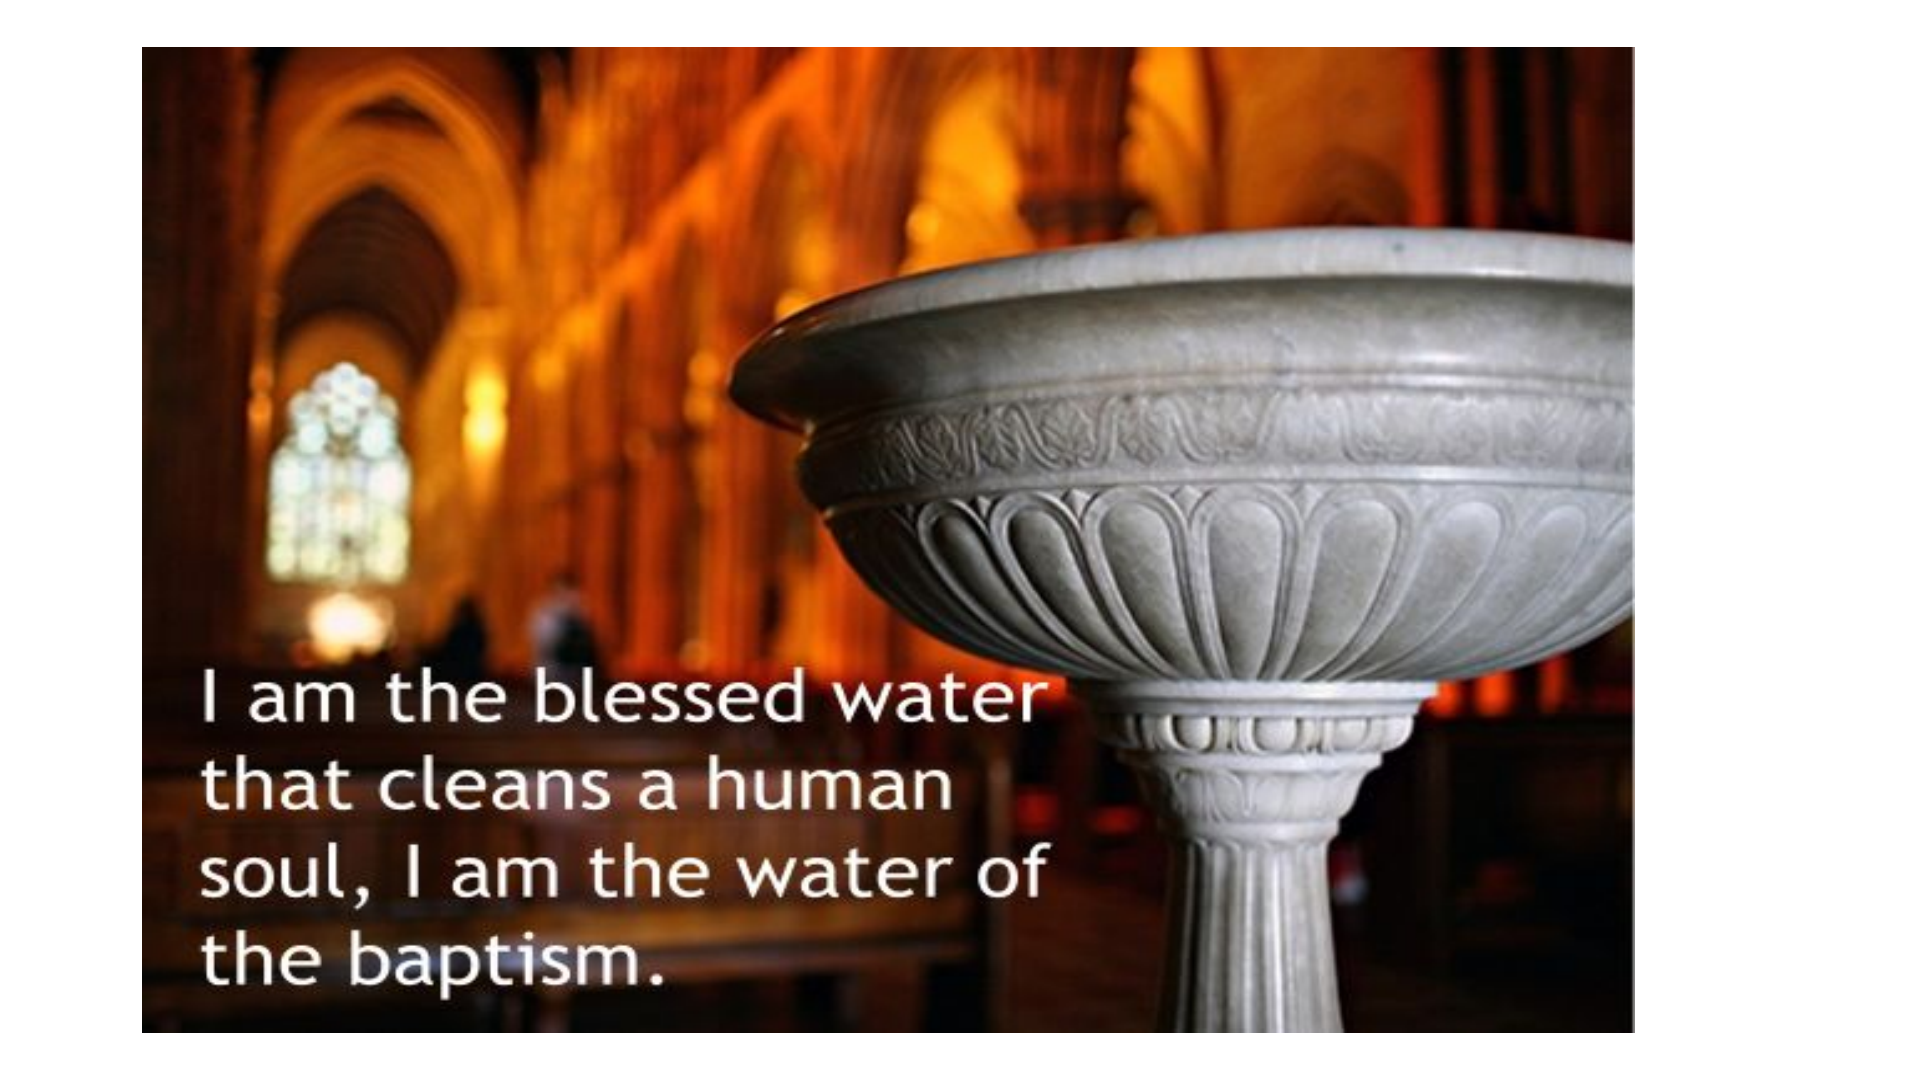

A photograph of a sailboat on a blue ocean. The sailboat's mast and rigging are visible in the foreground, and a white sail is partially seen on the left. The ocean is a deep blue with white-capped waves. In the distance, a low, dark landmass is visible on the horizon under a clear, bright blue sky. The text "I am the ocean that sails ships and traveling sailors." is overlaid in the upper right quadrant of the image.

I am the ocean
that sails ships
and traveling
sailors.

I am the clear water
of the fountain that
helps you cool.

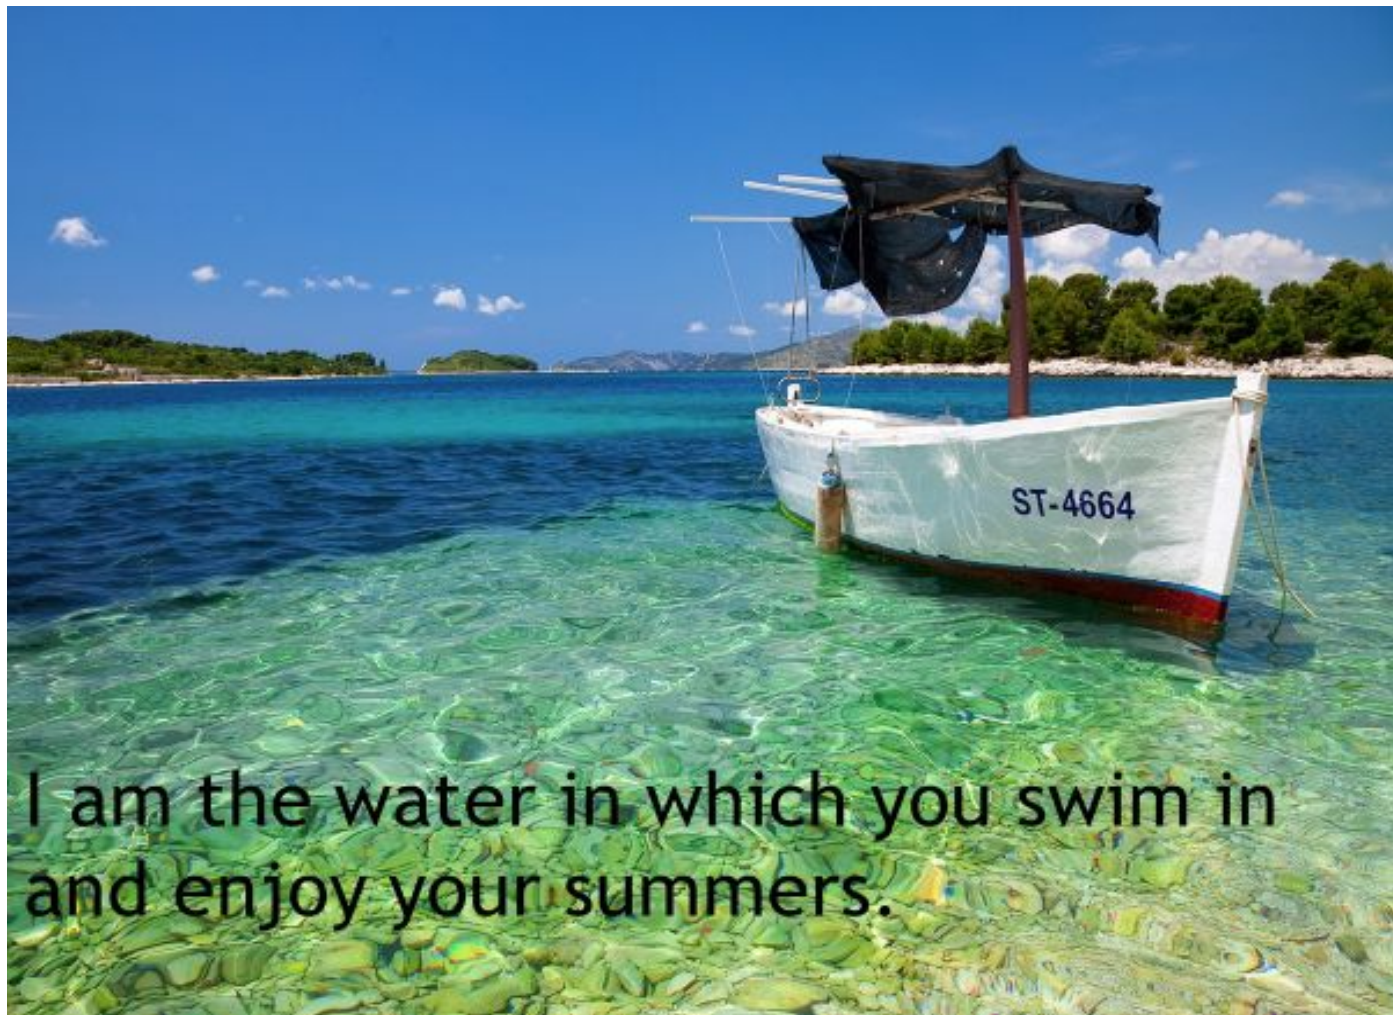

A close-up photograph of a white stone baptismal font with intricate carvings, set against a blurred background of a cathedral's interior with warm, golden light and Gothic arches.

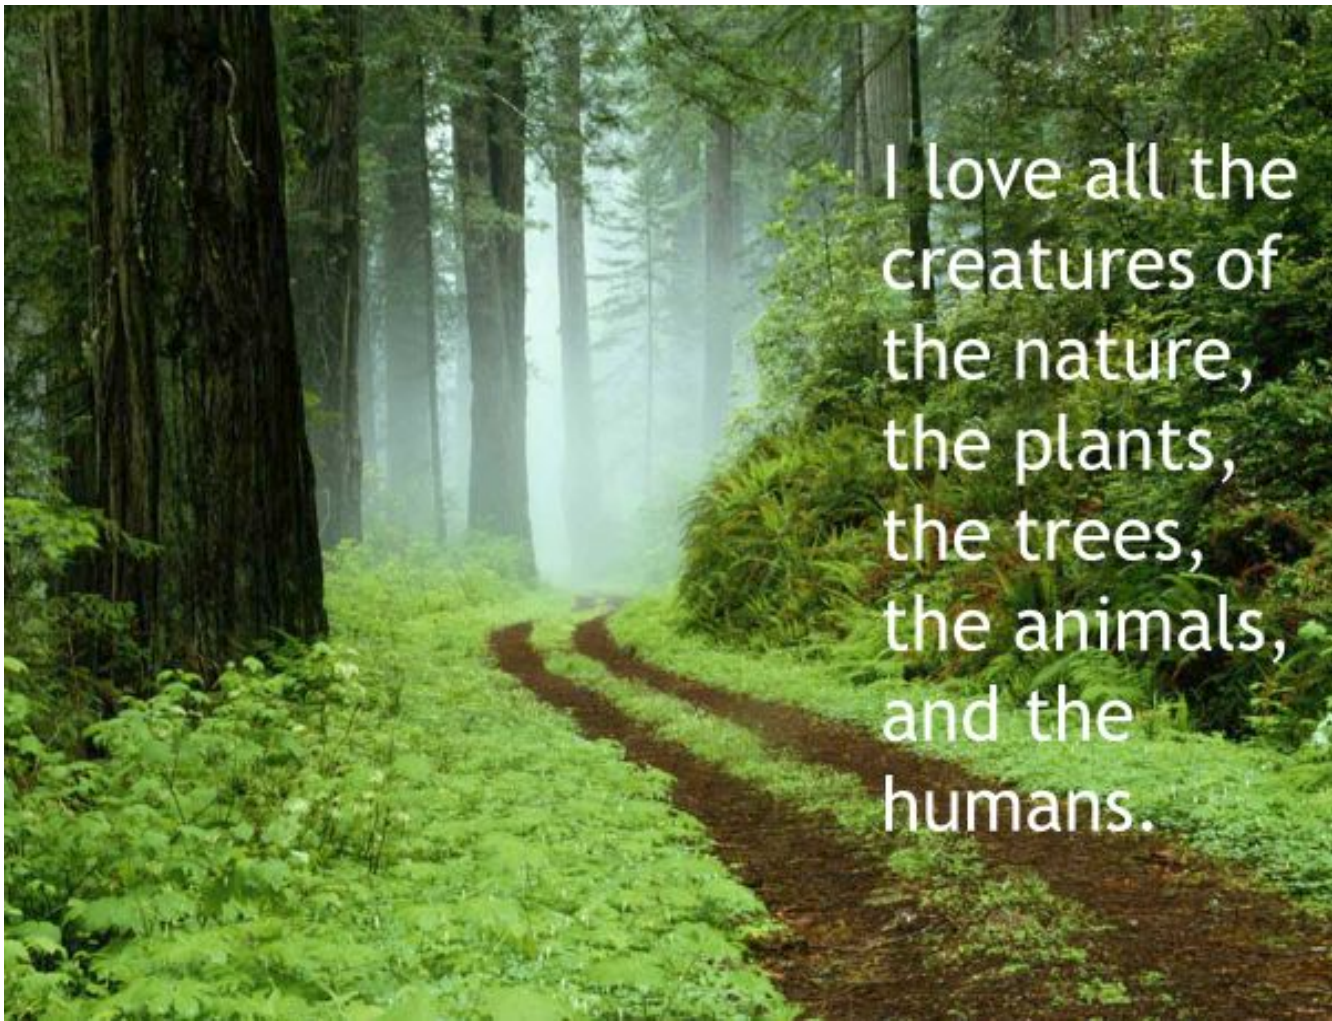

I am the blessed water
that cleans a human
soul, I am the water of
the baptism.

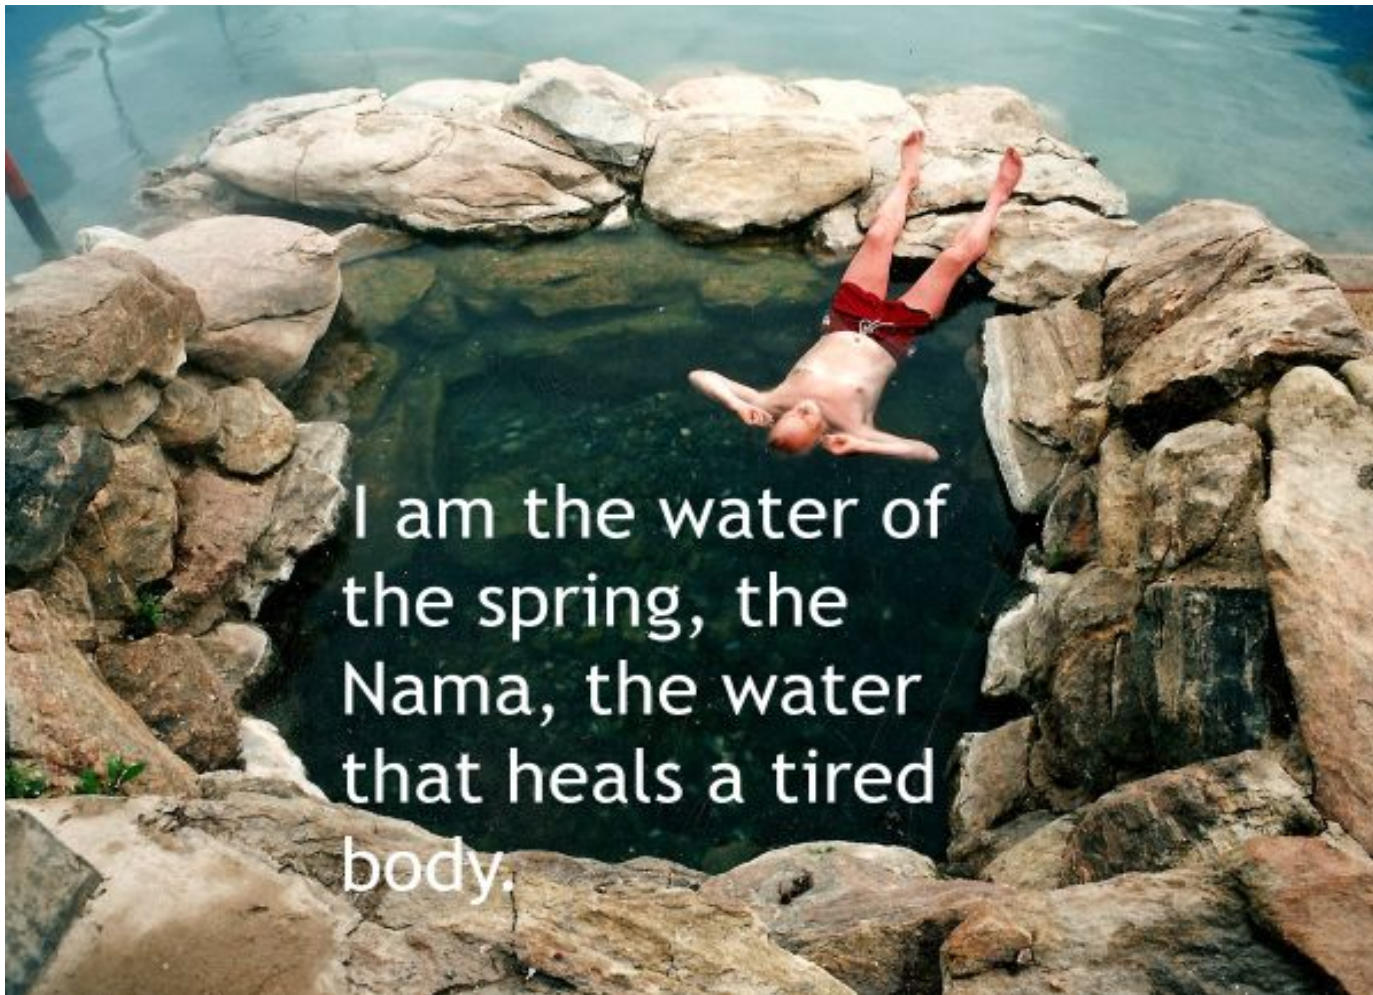

I am a source of life!

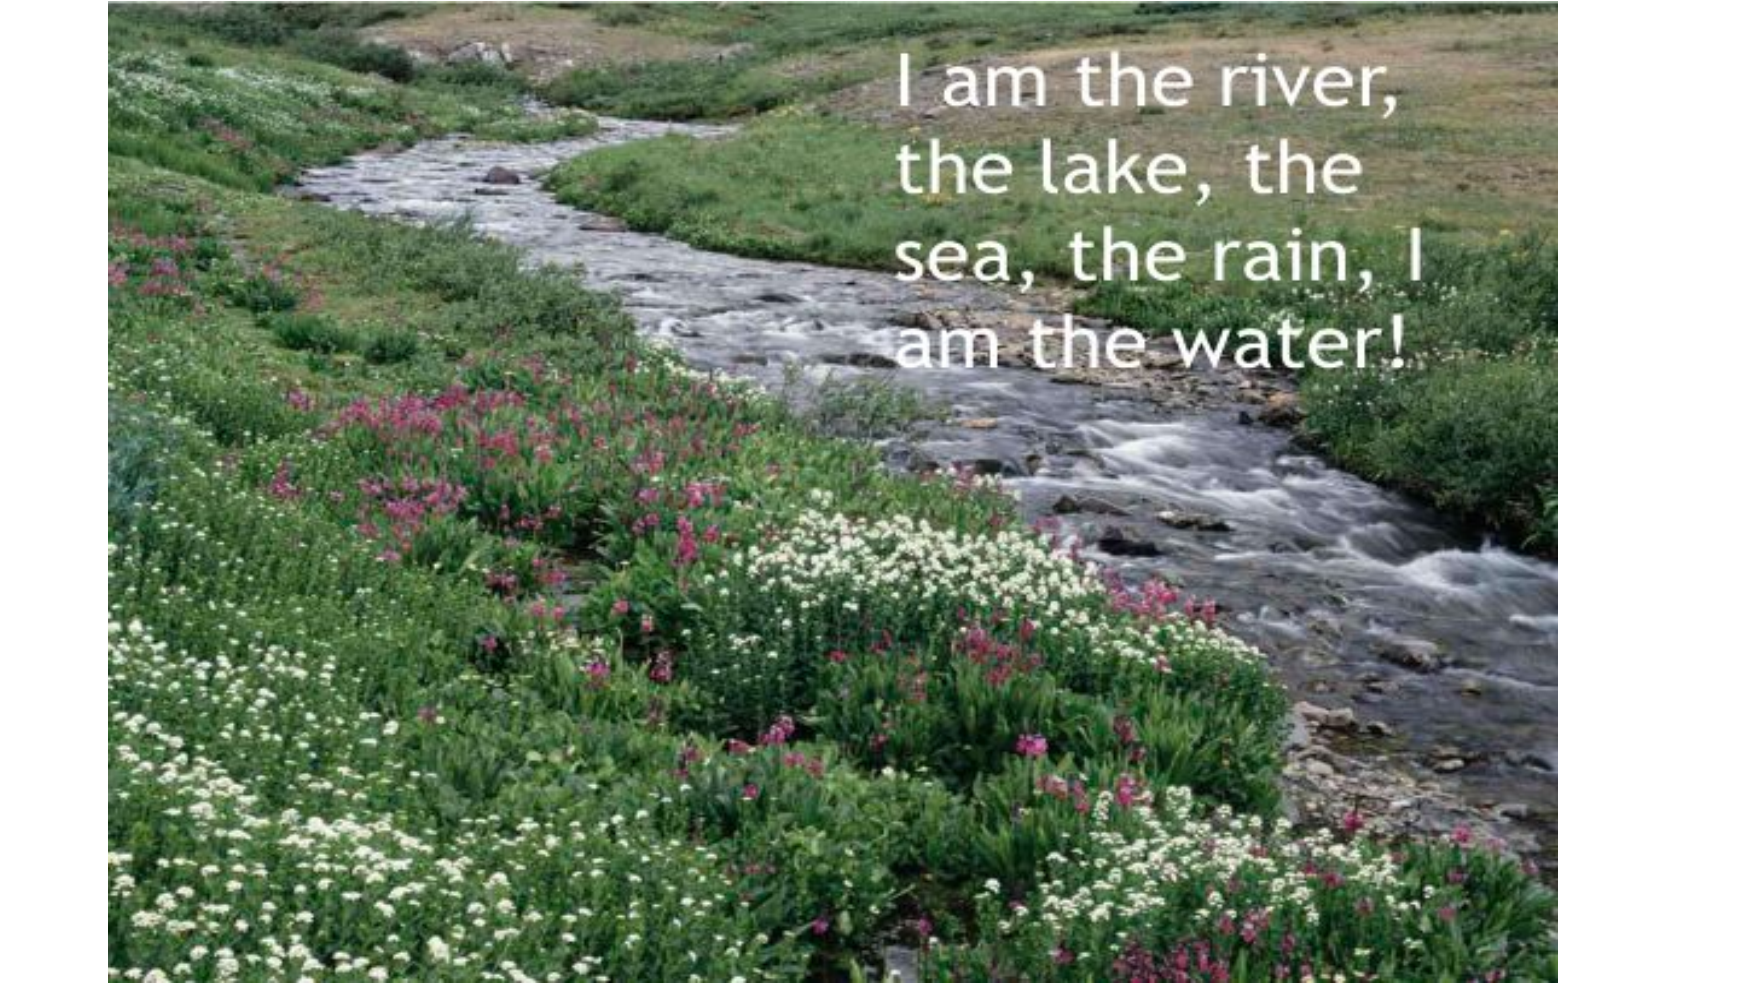

I am the water in which you swim in
and enjoy your summers.

I love all the
creatures of
the nature,
the plants,
the trees,
the animals,
and the
humans.

I am the water of
the spring, the
Nama, the water
that heals a tired
body.

I am the river,
the lake, the
sea, the rain, I
am the water!

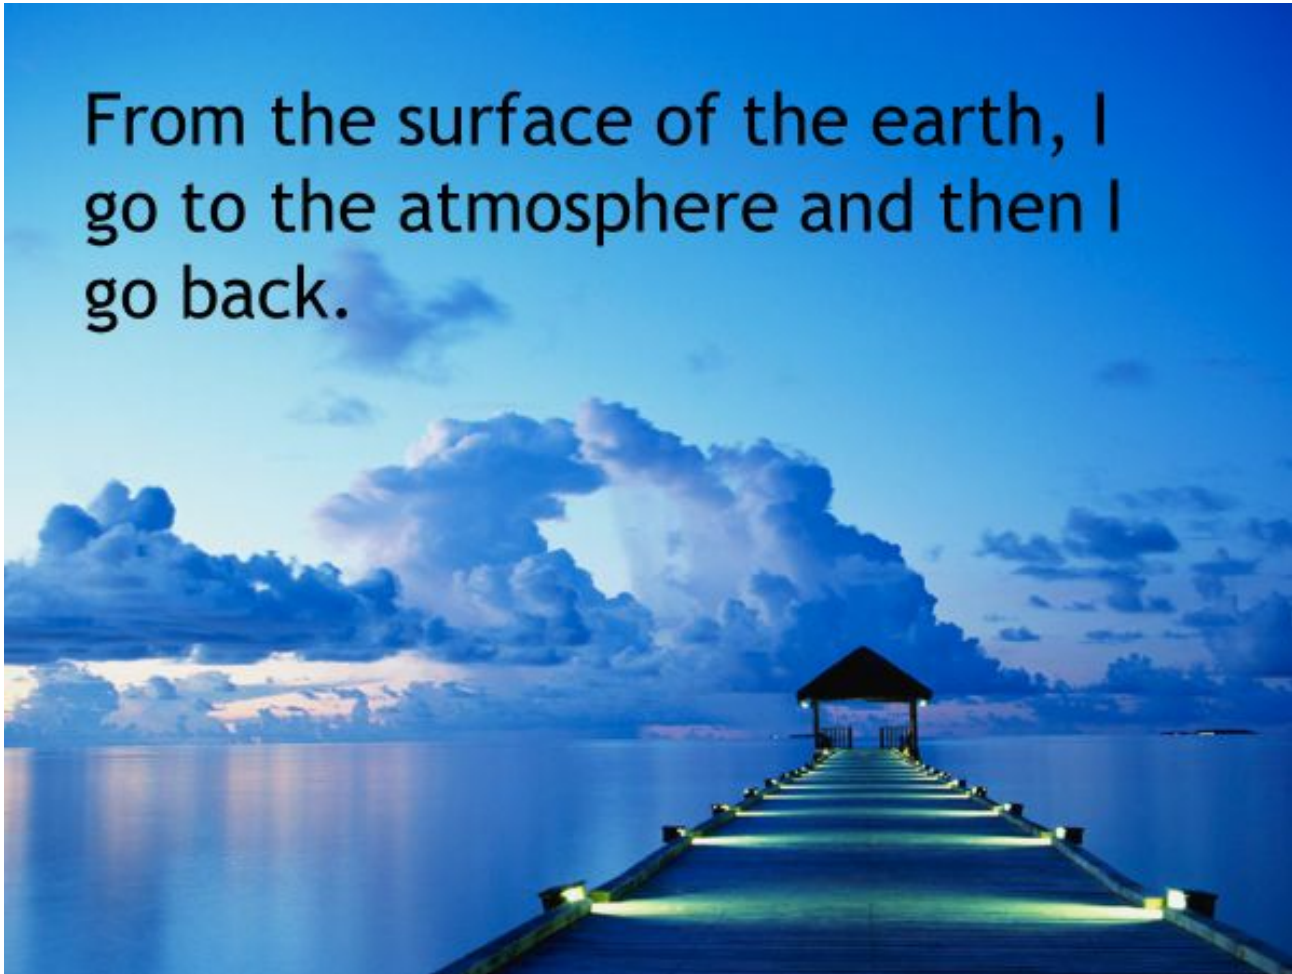

I give them my beneficial components
to live and grow up healthy.

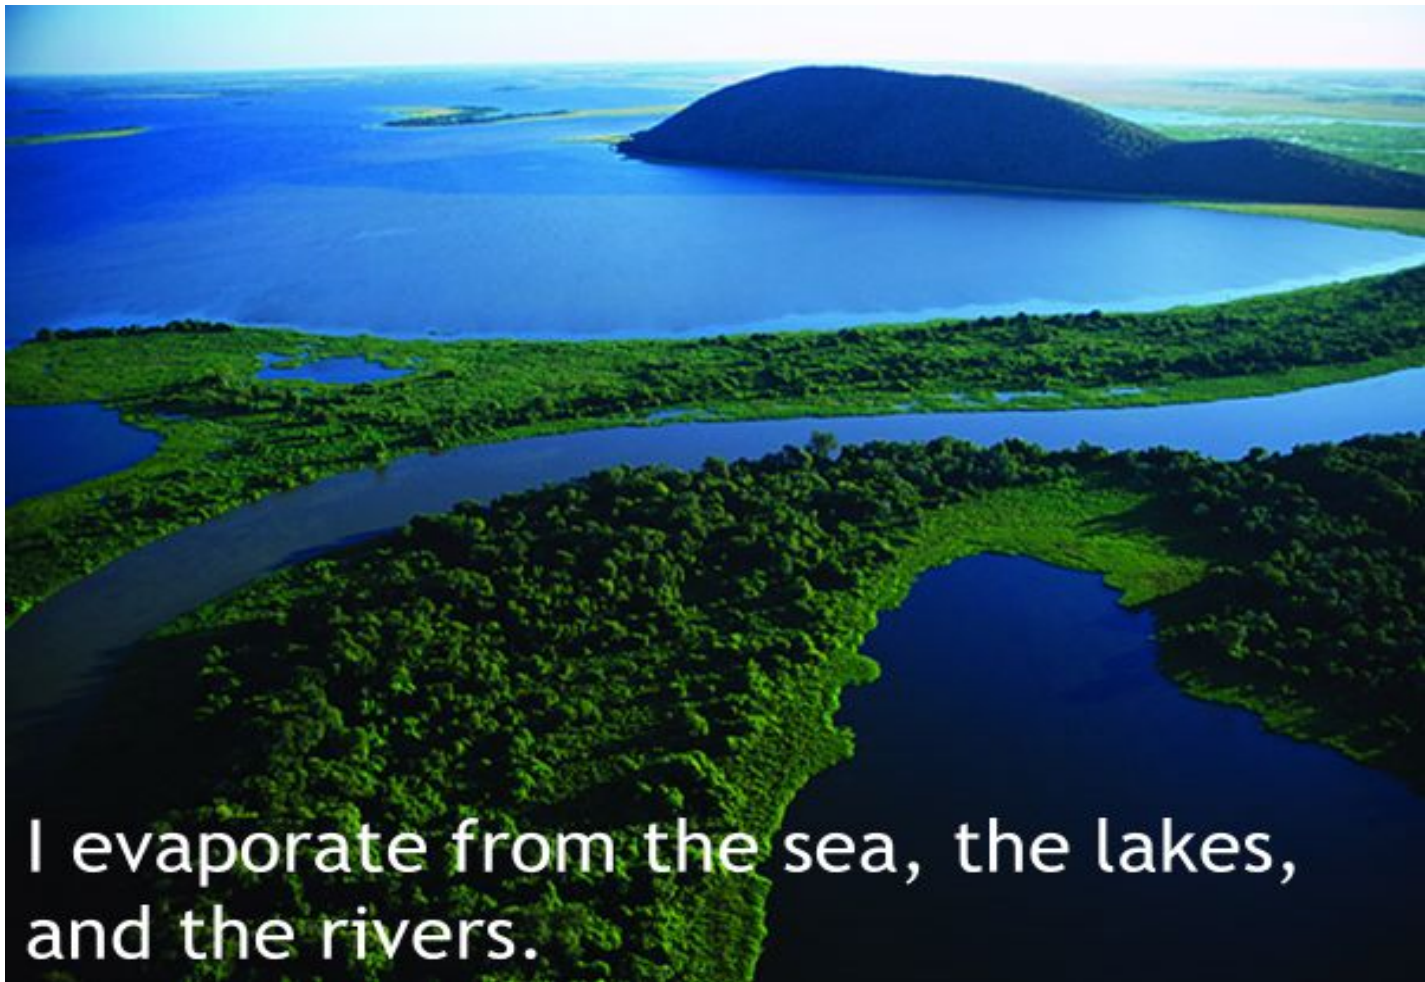

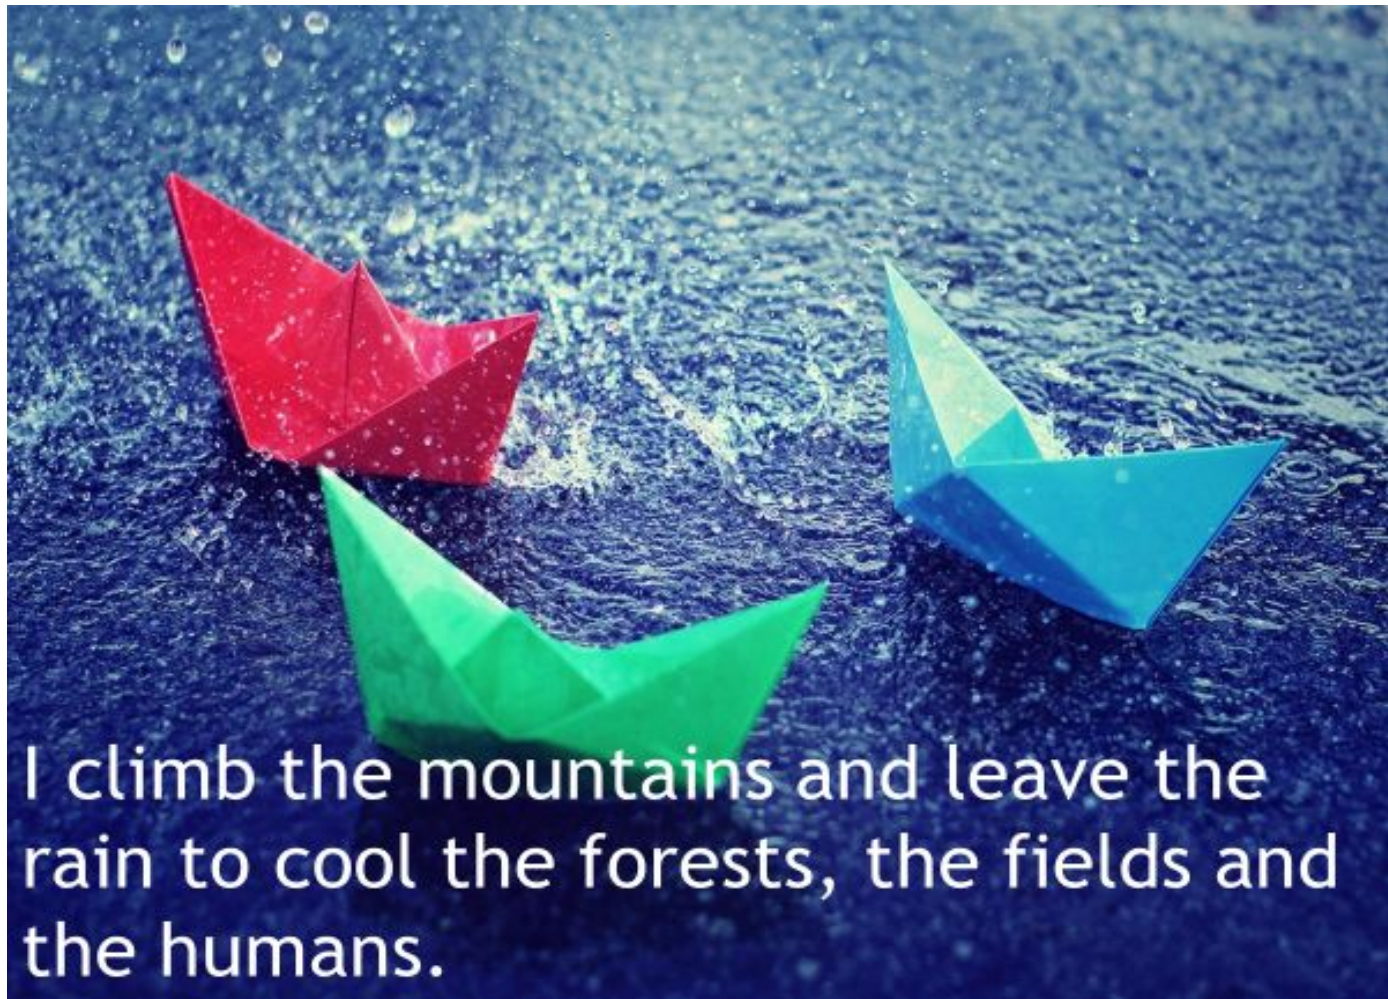

I am born all day... I move constantly.

From the surface of the earth, I
go to the atmosphere and then I
go back.

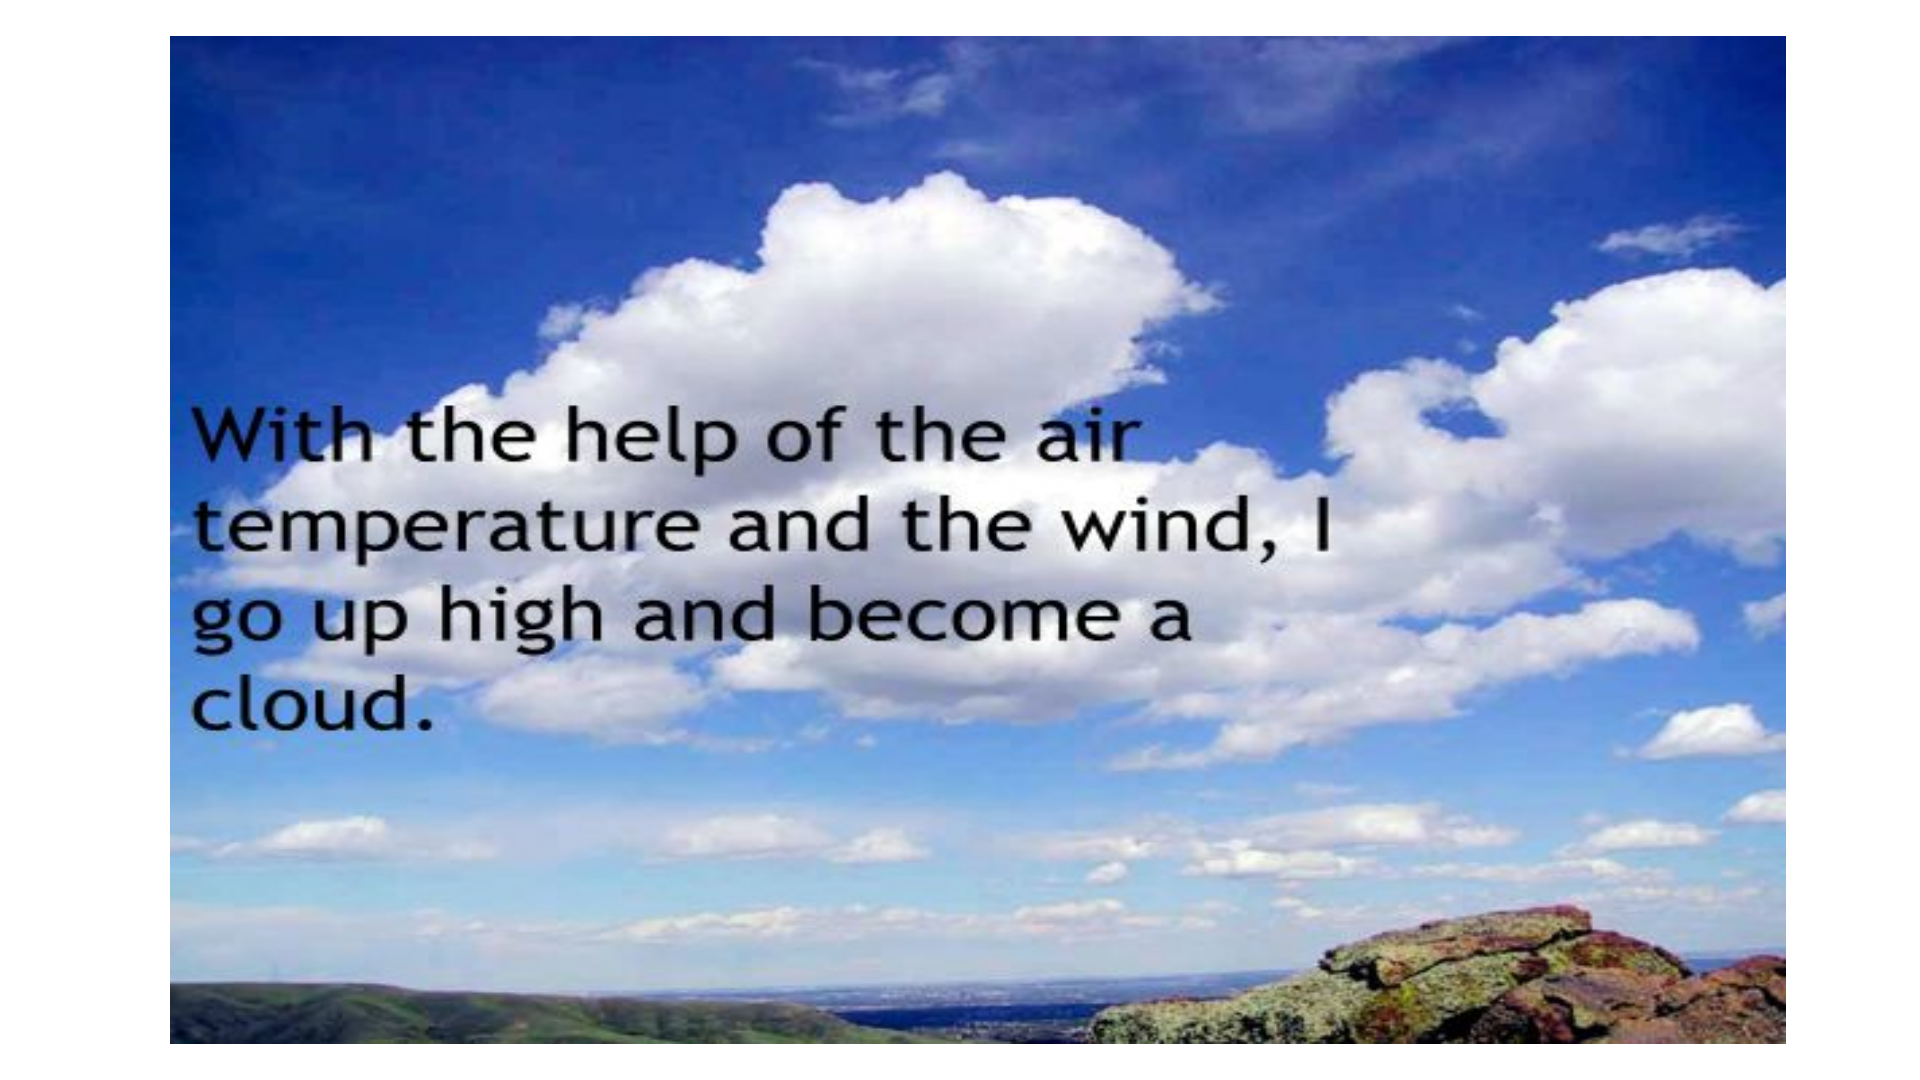

I evaporate from the sea, the lakes,
and the rivers.

I climb the mountains and leave the
rain to cool the forests, the fields and
the humans.

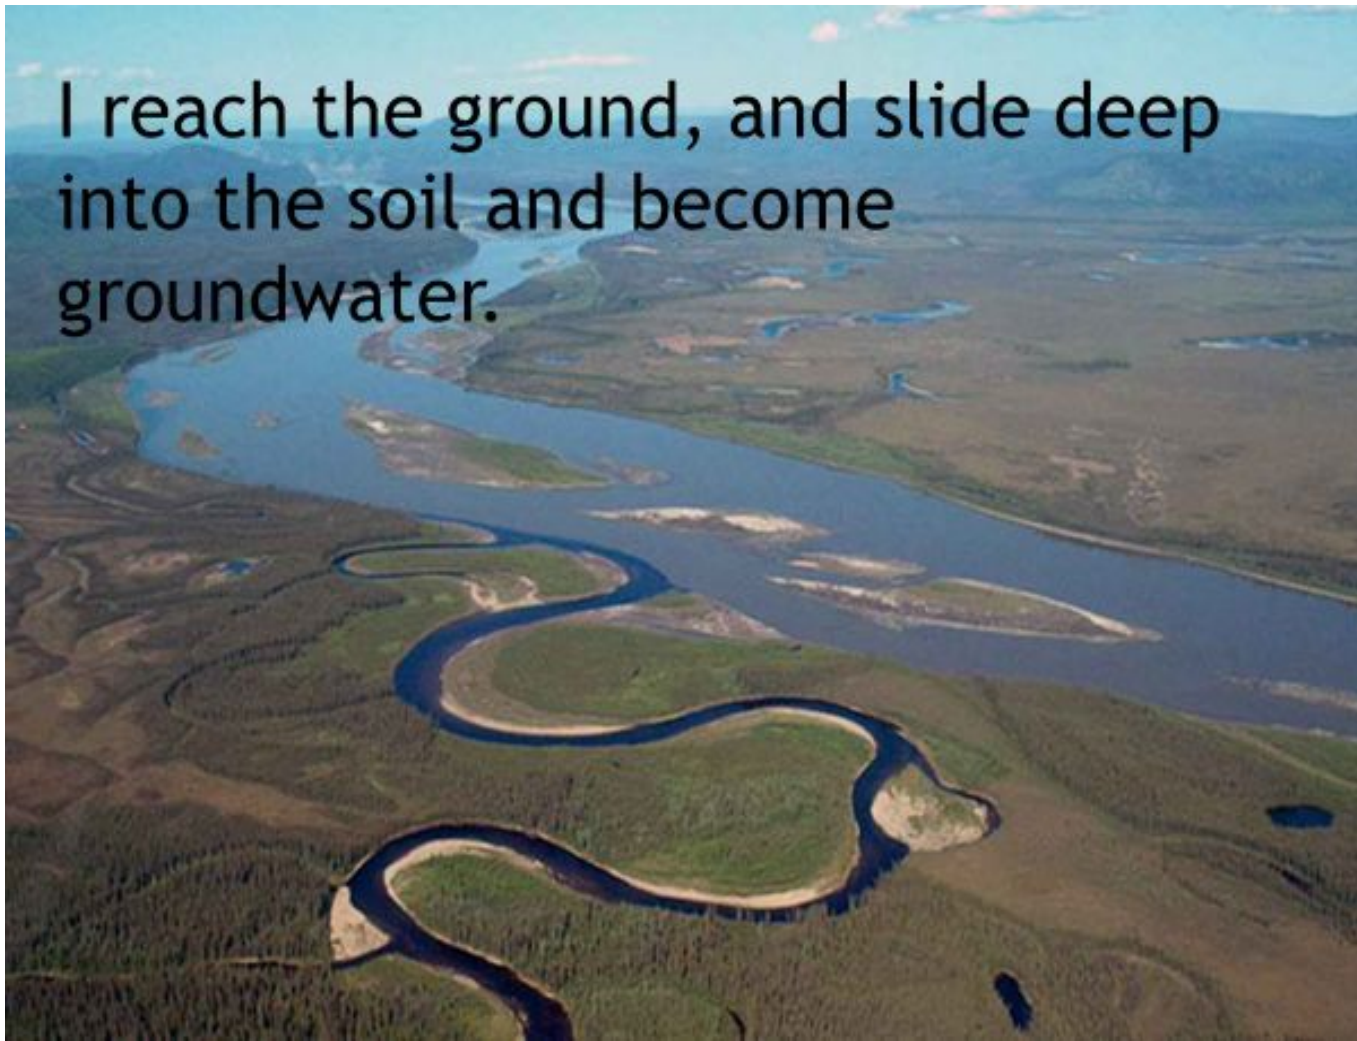

A landscape photograph showing a rocky, moss-covered peak in the foreground. The background features rolling green hills and a distant cityscape under a bright blue sky with scattered white cumulus clouds. The text is overlaid on the left side of the image.

With the help of the air
temperature and the wind, I
go up high and become a
cloud.

**I become lakes and
rivers.**

I reach the ground, and slide deep into the soil and become groundwater.

I am born all day... I
move constantly.

I become hail and snow.

During this movement,
the plants that love me
and take care of me,
keep me company.

Her creatures give birth to me
and then I feed them.

Wonderful nature!

I am the water and I move constantly.

The plants give moisture to the air, they give their small wet drops.
